Pearson Custom Library Nursing Case Studies enables you to select individual case studies, scenarios, and exercises from best-selling Pearson books and other sources. The content available in this online, book-building program covers topics across the nursing curriculum allowing you to create a book customized to your own teaching style, program requirements, and local protocols.

Below is a list of the available case studies. They are arranged alphabetically, by topic. You can also view these online by going to www.pearsoncustom.com keyword search: nursing and choosing “Build Your Book.”

**ADULT HEALTH**

A 48-Year-Old Trucker with Several Cardiovascular Risk Factors
A Client Having Surgery
A Client with a Bladder Tumor
A Client with a Chronic Subdural Hematoma
A Client with a Hip Fracture
A Client with a Major Burn Injury
A Client with a Stroke
A Client with Acquired Immunity
A Client with Acute Glomerulonephritis
A Client with Acute Renal Failure
A Client with Acute Respiratory Acidosis
A Client with Addison Disease
A Client with ARDS
A Client with Below-the-Knee Amputation
A Client with COPD
A Client with Coronary Artery Bypass Surgery
A Client with Cushing Syndrome and Surgical Management
A Client with Cystitis
A Client with Deep Vein Thrombosis
A Client with Diverticulitis
A Client with End-Stage Renal Disease
A Client with Fluid Volume Excess
A Client with Folic Acid Deficiency Anemia
A Client with Glaucoma and Cataracts
A Client with Gonorrhea
A Client with Graves Disease
A Client with Herpes Zoster
A Client with HIV Infection
A Client with Hyperkalemia
A Client with Hypertension
A Client with Hypokalemia
A Client with Hypothyroidism
A Client with Lung Cancer
A Client with Malignant Melanoma
A Client with Malnutrition
A Client with Mitral Valve Prolapse
A Client with Multiple Injuries
A Client with Myasthenia Gravis
A Client with Obesity
A Client with Osteoarthritis
A Client with Osteoporosis
A Client with Parkinson Disease
A Client with Rheumatoid Arthritis
A Client with Syphilis
A Client with Tuberculosis
A Client with Type I Diabetes Mellitus
A Client with Ulcerative Colitis Requiring Surgical Intervention
A Client with Urinary Calculi
A Client with Urinary Incontinence
A Man with Prostate Cancer
A Native American Client with Type II Diabetes Mellitus
A New Diagnosis of Acute Leukemia
A New Diagnosis of Alzheimer Disease
A Pain in the Head: Educating and Treating a Client with Sinusitis
A Patient with Breast Cancer
A Woman with Breast Cancer
A Woman with Cervical Cancer
A Woman with Endometriosis
Abdominal Aortic Aneurism
Acquired Immune Deficiency Syndrome (AIDS)
Acute Heart Failure and Pulmonary Edema related to Uncontrolled Hypertension and Hypoxia
Acute Lymphocytic Leukemia
Acute Myocardial Infarction
Coping with a Hip Fracture and Parkinson’s Disease
Dehydration and Acute Renal Failure in the Elderly Client
Dehydration and Adrenal Insufficiency
Discharge Teaching of a Client Prescribed Coumadin
Ductal Adenocarcinoma of the Breast
Elderly Female Client Considering Suicide
Elderly Man with Neurogenic Bladder
End of Life and Right to Die Issues in Home Care
Endocarditis and Sepsis in a Client with a History of Intravenous Drug Abuse
End-of-Life Care with Bladder Cancer
End-of-Life Palliative Care in the Home
Fluid Retention of Unknown Etiology
Follow-up Visit for the Newly Diagnosed Hypertension and Coronary Artery Disease Patient
Getting the Facts: Breast Disease in the Female Client
Grief Work and Nursing Home Placement
Hepatitis B
Holistic Care for the Postmenopausal Female
Home Care Management for the Client with Congestive Heart Failure
Home Care Management of a Client with a Colostomy
Home Care Management of an Infected Foot Wound
Home Care Management of the Client with End-Stage Parkinson’s Disease
Home Care of the Client with Alzheimer’s Disease
Home Care of the Client with Complicated Peripheral Vascular Disease
Home Management of Central Line Care in the Client with Substance Abuse
Home Management of Hypoglycemia
Hyperthyroidism
Immediate Postoperative Care of Abdominal Hysterectomy Client
Informed Consent for a Cancer Patient
Ketoacidosis in the Client with Type I Diabetes Mellitus
Let’s Go There: Assessing Sexuality in the Adolescent Male
Living with a Cardiac Pacemaker
Management of a Fecal Impaction in the Home-Bound Client
Middle-Aged Client with Chronic Obstructive Pulmonary Disease (COPD)
Multiple Sclerosis
Nurses’ Responsibility to Provide Emergency Care
Planning Care for a Patient with a Cerebrovascular Accident (CVA)
Pneumonia as a Postoperative Complication
Recovery from Alcohol Addiction
Renal Calculi
Respiratory Compromise Following Hip Surgery
Spinal Cord Injury
Stiff and Tired: Assessing and Educating a Client with Rheumatoid Arthritis (RA)
Teaching and Educating the Client with Bacterial Vaginosis
The Adult Client with Cirrhosis of the Liver and Complicating Esophageal Varices
The Adult Client with Congestive Heart Failure
The Client with Aortic Stenosis Requiring Aortic Valve Replacement
The Client with Bacterial Meningitis
The Client with Colorectal Cancer
The Client with GI Bleeding and Anemia Requiring Blood Transfusion
The Client with Inflammatory Bowel Disease with Surgical Intervention
The Client with Metabolic Acidosis and Impending Respiratory Failure
The Client with Traumatic Injuries Following a Motor Vehicle Accident
The College Student with a Seizure Disorder
The Danger Zone: Educating the Adult Client about Hypertension
The Homeless Client with Tuberculosis
Too Much Sugar: Assessing and Educating the Client with Type 2 Diabetes
Too Much Sun: Assessment of and Risk for Skin Cancer in the Adult Client

Traumatic Hip Fracture

Tuberculosis and Public Health Considerations

Type II Diabetes Mellitus

Unexpected Heart Failure

Urgent, Yet Hesitant: Assessing and Educating a Client with Benign Prostatic Hyperplasia

What a Pain! Assessment of and Education for the Client Experiencing Back Pain

What’s Your Gut Instinct? Identification and Treatment of Peptic Ulcer Disease in the Adult Client

When it Hurts to Swallow: Assessing and Educating a Client with Acute Bacterial Pharyngitis

When Memory Loss Becomes a Problem: Alzheimer’s Disease

68-Year-Old Asian Male with Intractable Epistaxis

72-Year-Old Woman with Open- and Closed-Angle Glaucoma
