

## **Preface**

### **Chapter 1 Basic Tools Used in Understanding Microeconomics**

#### **1.1 Economic Models**

1.1.1 Positive and Normative Analysis

1.1.2 The Market Economy Model

1.1.3 Types of Economic Problems

#### **1.2 Mathematics Review**

1.2.1 Functions and Graphs

1.2.2 Types of Functions

1.2.3 Equations and Identities

1.2.4 Derivatives

1.2.5 Rules for Finding Derivatives

#### **1.3 Unconstrained Optimization**

1.3.1 Optimality Conditions With One Choice Variable

1.3.2 Optimality Conditions With Two Choice Variables

1.3.3. Comparative Statics

*Example 1-1 Maximizing Royalty Payments*

#### **1.4 Constrained Optimization Problems**

1.4.1 Optimality Conditions With Two Choice Variables

1.4.2 A Special Case: A Linear Constraint Function

*Example 1-2 Allocating Study Time*

1.4.3 Corner Solutions

Chapter 1 Exercises

### **Chapter 2 Consumer Choice**

#### **2.1 The Budget Constraint**

2.1.1 The Intercepts of the Budget Constraint

2.1.2 The Slope of the Budget Constraint

2.1.3 The Budget Set

2.1.4 Using A Composite Good

*Example 2-1 Buy One, Get One Free*

#### **2.2 Preferences Of Consumers**

2.2.1 Assumptions

2.2.2 Utility Functions

- 2.2.3 Indifference Curves
- 2.2.4 The Marginal Rate of Substitution

*Example 2-2 Introducing a New Product Line*

### **2.3 Utility Maximization**

- 2.3.1 Optimality Conditions
- 2.3.2 Interpreting the Optimality Conditions
- 2.3.3 Corner Solutions

*Example 2-3 Kirk's Demand Functions for Golf and Tennis*

*Example 2-4 Charitable Contributions*

### **2.4 Expenditure Minimization and Value Functions**

- 2.4.1 Compensated Demand
- 2.4.2 Value Functions

Chapter 2 Exercises

## **Chapter 3 Demand**

### **3.1 Demand Functions and Demand Curves**

### **3.2 Comparative Statics**

#### 3.2.1 Normal and Inferior Goods

*Example 3-1 Quasilinear Preferences and Changes in Income*

- 3.2.2 The Law of Demand
- 3.2.3 Substitutes and Complements

*Example 3-2 Comparative Statics Analysis and Cobb-Douglas Preferences*

### **3.3 Income and Substitution Effects**

- 3.3.1 The Substitution Effect
- 3.3.2 The Income Effect
- 3.3.3 Summarizing the Income and Substitution Effects

### **3.4 Comparative Statics Analysis in Action**

#### 3.4.1 Excise Taxes and Lump Sum Taxes

*Example 3-3 Taxing Gasoline Consumption*

#### 3.4.2 Price Discounts

*Example 3-4 Clipping Coupons*

3.4.3 In-Kind Subsidies

*Example 3-5: A Food Stamp Program*

**3.5 Market Demand**

3.5.1 Market Demand Curves and Demand Functions

3.5.2 Elasticities

*Example 3-6 Revenue and the Price Elasticity of Demand*

**3.6 Consumer Welfare**

3.6.1 Consumer Surplus

*Example 3-7 Consumer Surplus and the Gasoline Tax*

3.6.2 The Consumer Price Index

Chapter 3 Exercises

## **Chapter 4 Topics in Consumer Theory: Labor Supply, Saving, and Endowments**

**4.1 Labor Supply**

*Example 4-1 Income Taxes and Labor Supply*

**4.2 Saving**

*Example 4-2: Lower Interest Rates, Borrowing and the Demand for Goods and Services*

**4.3 Endowments**

*Example 4-3: Gains From Trade*

Chapter 4 Exercises

## **Chapter 5 Cost Minimization**

**5.1 Firms**

5.1.1 Types of Firms

5.1.2 The Firm's Objective: Profit Maximization

*Example 5-1 Historical Costs and Business Decisions*

## **5.2 Describing a Firm's Technology**

### 5.2.1 Production Functions

### 5.2.2 Diminishing Productivity and Returns to Scale

*Example 5-2 Pizza Production*

### 5.2.3 Isoquants

### 5.2.4 The Marginal Rate of Technical Substitution

## **5.3 Cost Minimization**

### 5.3.1 Optimality Conditions

### 5.3.2 Interpreting the Optimality Conditions

*Example 5-3 Determining the Cost-Minimizing Input Bundle for Eastwick Inc.*

### 5.3.3 Cost Minimization with Fixed Inputs

## **5.4 Cost Functions and Cost Curves**

### 5.4.1 The Long-Run and Short-Run Cost Functions

*Example 5-4 Finding Eastwick's Cost Functions*

### 5.4.2 Short-Run Cost Curves

### 5.4.3 Long-Run Cost Curves

*Example 5-5 Introducing a New Product Line*

## **5.5 Public Policy and Long-Run Costs**

### 5.5.1 Input Taxes

*Example 5-6 Payroll Taxes and Costs*

### 5.5.2 Input Restrictions

*Example 5-7 Pesticide Regulation and Costs*

Chapter 5 Exercises

## **Chapter 6 Profit Maximization: The Competitive Firm**

### **6.1 Perfect Competition**

#### 6.1.1 The Requirements for Perfect Competition

#### 6.1.2 Why Study Perfect Competition?

#### 6.1.3 Alternative Types of Markets

## **6.2 Profit Maximization and Output Supply**

### 6.2.1 Long-Run Optimality Conditions

*Example 6-1 Excise Taxes and Profit Maximization*

### 6.2.2 The Long-Run Supply Curve

### 6.2.3 Short-Run Optimality Conditions

### 6.2.4 Operating at a Loss in the Short Run

*Example 6-2 Short-Run Supply*

### 6.2.5 The Short-Run Supply Curve

## **6.3 Profit Maximization and Input Demand**

### 6.3.1 Optimality Condition with a Single Input

### 6.3.2 Interpreting the Optimality Condition

*Example 6-3 Deriving a Firm's Demand for Labor*

### 6.3.3 Optimality Conditions with Two Inputs

*Example 6-4 Deriving a Firm's Demand for Capital and Labor*

Chapter 6 Exercises

## **Chapter 7 Perfect Competition**

### **7.1 Short-Run Competitive Equilibrium**

#### 7.1.1 The Short-Run Market Supply Curve

#### 7.1.2 Supply and Demand Analysis: Price and Quantity in the Short run

*Example 7-1 Short-Run Competitive Equilibrium*

### **7.2 Long-run Competitive Equilibrium**

#### 7.2.1 The Long-Run Market Supply Curve: Constant Cost Industry

*Example 7-2 Deriving the Long-Run Market Supply Curve for a Constant Cost Industry*

#### 7.2.2 The Long-Run Market Supply Curve: Increasing Cost Industry

### **7.3 Producer Surplus and Economic Rent**

#### 7.3.1 Short-Run Producer Surplus

#### 7.3.2 Long-Run Producer Surplus or Economic Rent

*Example 7-3 Falling Mortgage Rates and Long-Run Producer Surplus*

## **7.4 Perfect Competition in Action**

*Example 7-4 The Cigarette Tax*

Chapter 7 Exercises

## **Chapter 8 Monopoly**

### **8.1 Monopoly**

8.1.1 Sources of Market Power

8.1.2 Demand and Marginal Revenue for a Monopoly

### **8.2 Profit Maximization**

8.2.1 Long-Run Optimality Conditions

*Example 8-1 Licensing a Monopoly and Profit Maximization*

8.2.2 Short-Run Optimality Conditions

### **8.3 Perfect Competition and Monopoly Compared**

8.3.1 The Non-existence of Supply Curves

8.3.2 Higher Price and Lower Output

8.3.3 The Inefficiency of Monopoly

*Example 8-2 Excise Taxes: Monopoly and Competition Compared*

### **8.4 Using the Monopoly Model**

8.4.1 Regulating a Monopoly: Marginal Cost Pricing

8.4.2 Regulating a Natural Monopoly: Average Cost Pricing

*Example 8-3 Regulating an Electric Company*

8.4.3 Price Discrimination

*Example 8-4 Pricing Airline Tickets*

8.4.4 Peak-Load Pricing

*Example 8-5 Pricing Computer Time*

8.4.5 Cartels

*Example 8-6 The Diamond Cartel*

Chapter 8 Exercises

## **Chapter 9 Strategic Decision Making and Oligopoly**

### **9.1 Game Theory Basics**

- 9.1.1 Elements of a Game
- 9.1.2 Dominant Strategy Equilibrium
- 9.1.3 Nash Equilibrium
- 9.1.4 Subgame Perfect Equilibrium

*Example 9-1 Credible Threats and Entry Deterrence*

### **9.2 The Cournot Model**

- 9.2.1 Profit Maximization
- 9.2.2 Nash Equilibrium
- 9.2.3 Prisoners' Dilemma
- 9.2.4 Overcoming the Prisoners' Dilemma

*Example 9-2 OPEC and the Prisoners' Dilemma*

### **9.3 The Stackelberg Model**

- 9.3.1 Profit Maximization
- 9.3.2 First-Mover Advantage

*Example 9-3 The First-Mover Advantage in the Rootbeer Market*

### **9.4 Using Game Theory**

*Example 9-4 Marketing Expenditures as an Entry Deterrent*

*Example 9-5 To License or Not to License*

Chapter 9 Exercises
