

# Introducing Pearson Virtual School Courses

Highly engaging Pearson Virtual School Courses with media-rich content give you the flexibility to deliver online instruction in a remote or blended environment.

In today's multi-faceted, multi-technology, and ever changing environment, students face many challenges to have access to the educational opportunities they deserve and need. Virtual School Courses provide students access to high quality content with flexible program options.

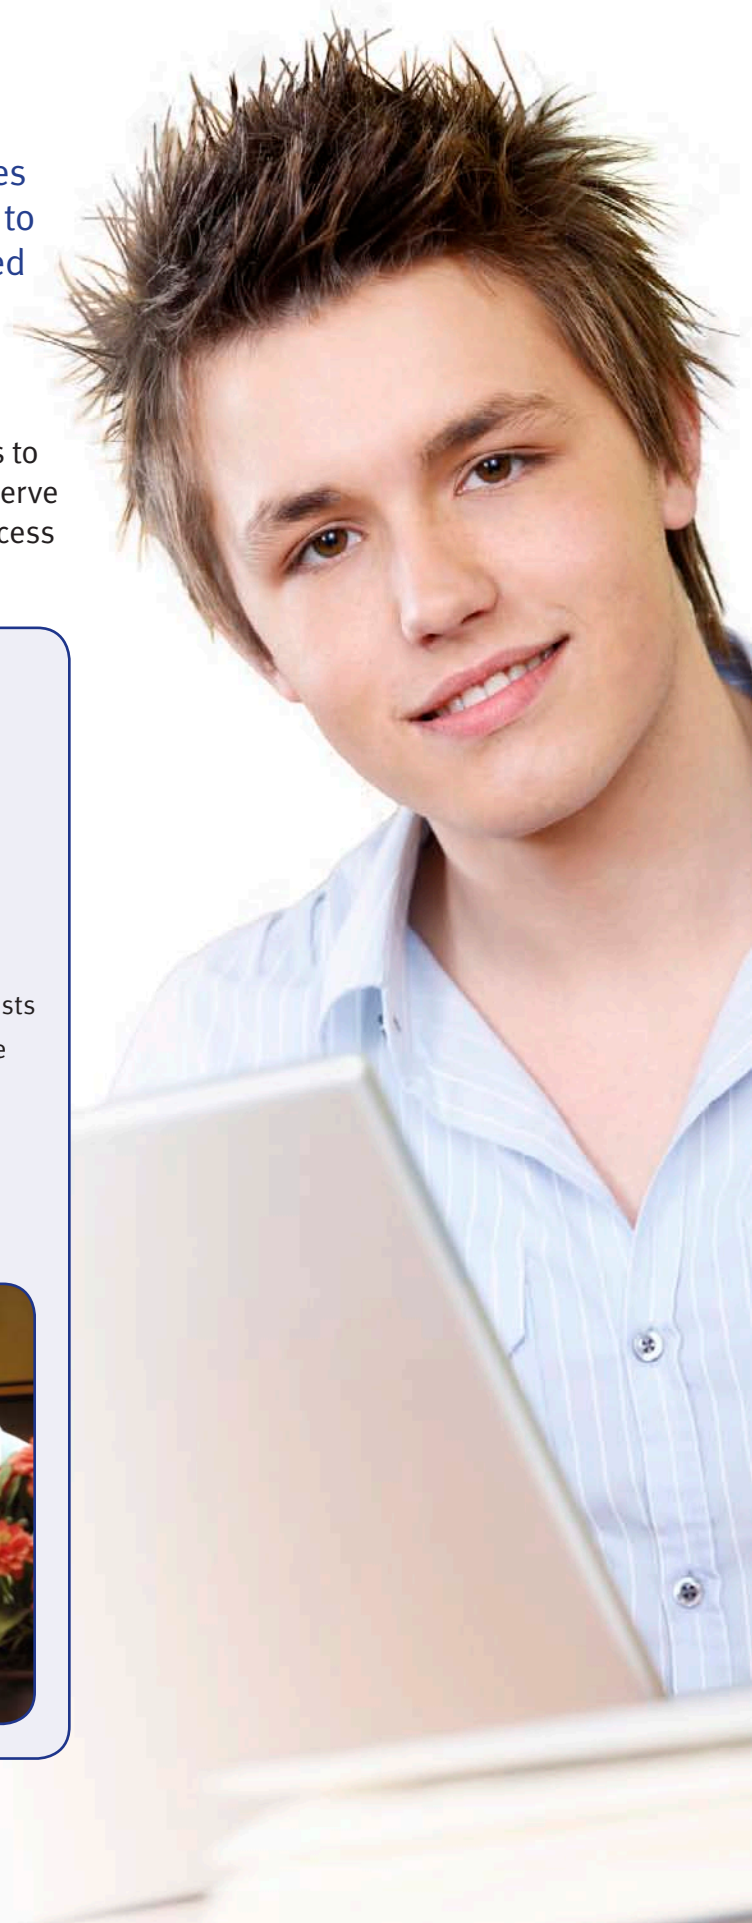

## **Our Core Courses:**

- Are aligned to national and state standards
- Utilize the iNACOL and SREB standards for online courses
- Are developed using the framework for 21st century skills
- Utilize pre- and post-assessments at the module level
- Employ media-rich activities within a modular framework

## **Our Advanced Placement® (AP) Courses:**

- Help students gain confidence and skills needed for AP tests
- Embed AP test preparation into the design of every course
- Provide some of the most rigorous content available

With assessment-driven curriculum students stay on track and can see their progress, building the confidence they need for future success.

The accessibility your students need.

Flexibility for your teachers.

The high quality content you require.

#### Courses Currently Available Include:

##### Core

Pre-Algebra  
Algebra I
